The Cultural Flywheel: A self-sustaining engine of creative generation

Step 1: Create (Physical)

An artist develops a project or skill in a Maker Space (Tinkerlabs, Babu's Place).

Step 2: Broadcast (Digital)

The resulting music, talk, or noise is broadcast globally on Ch313-radio.

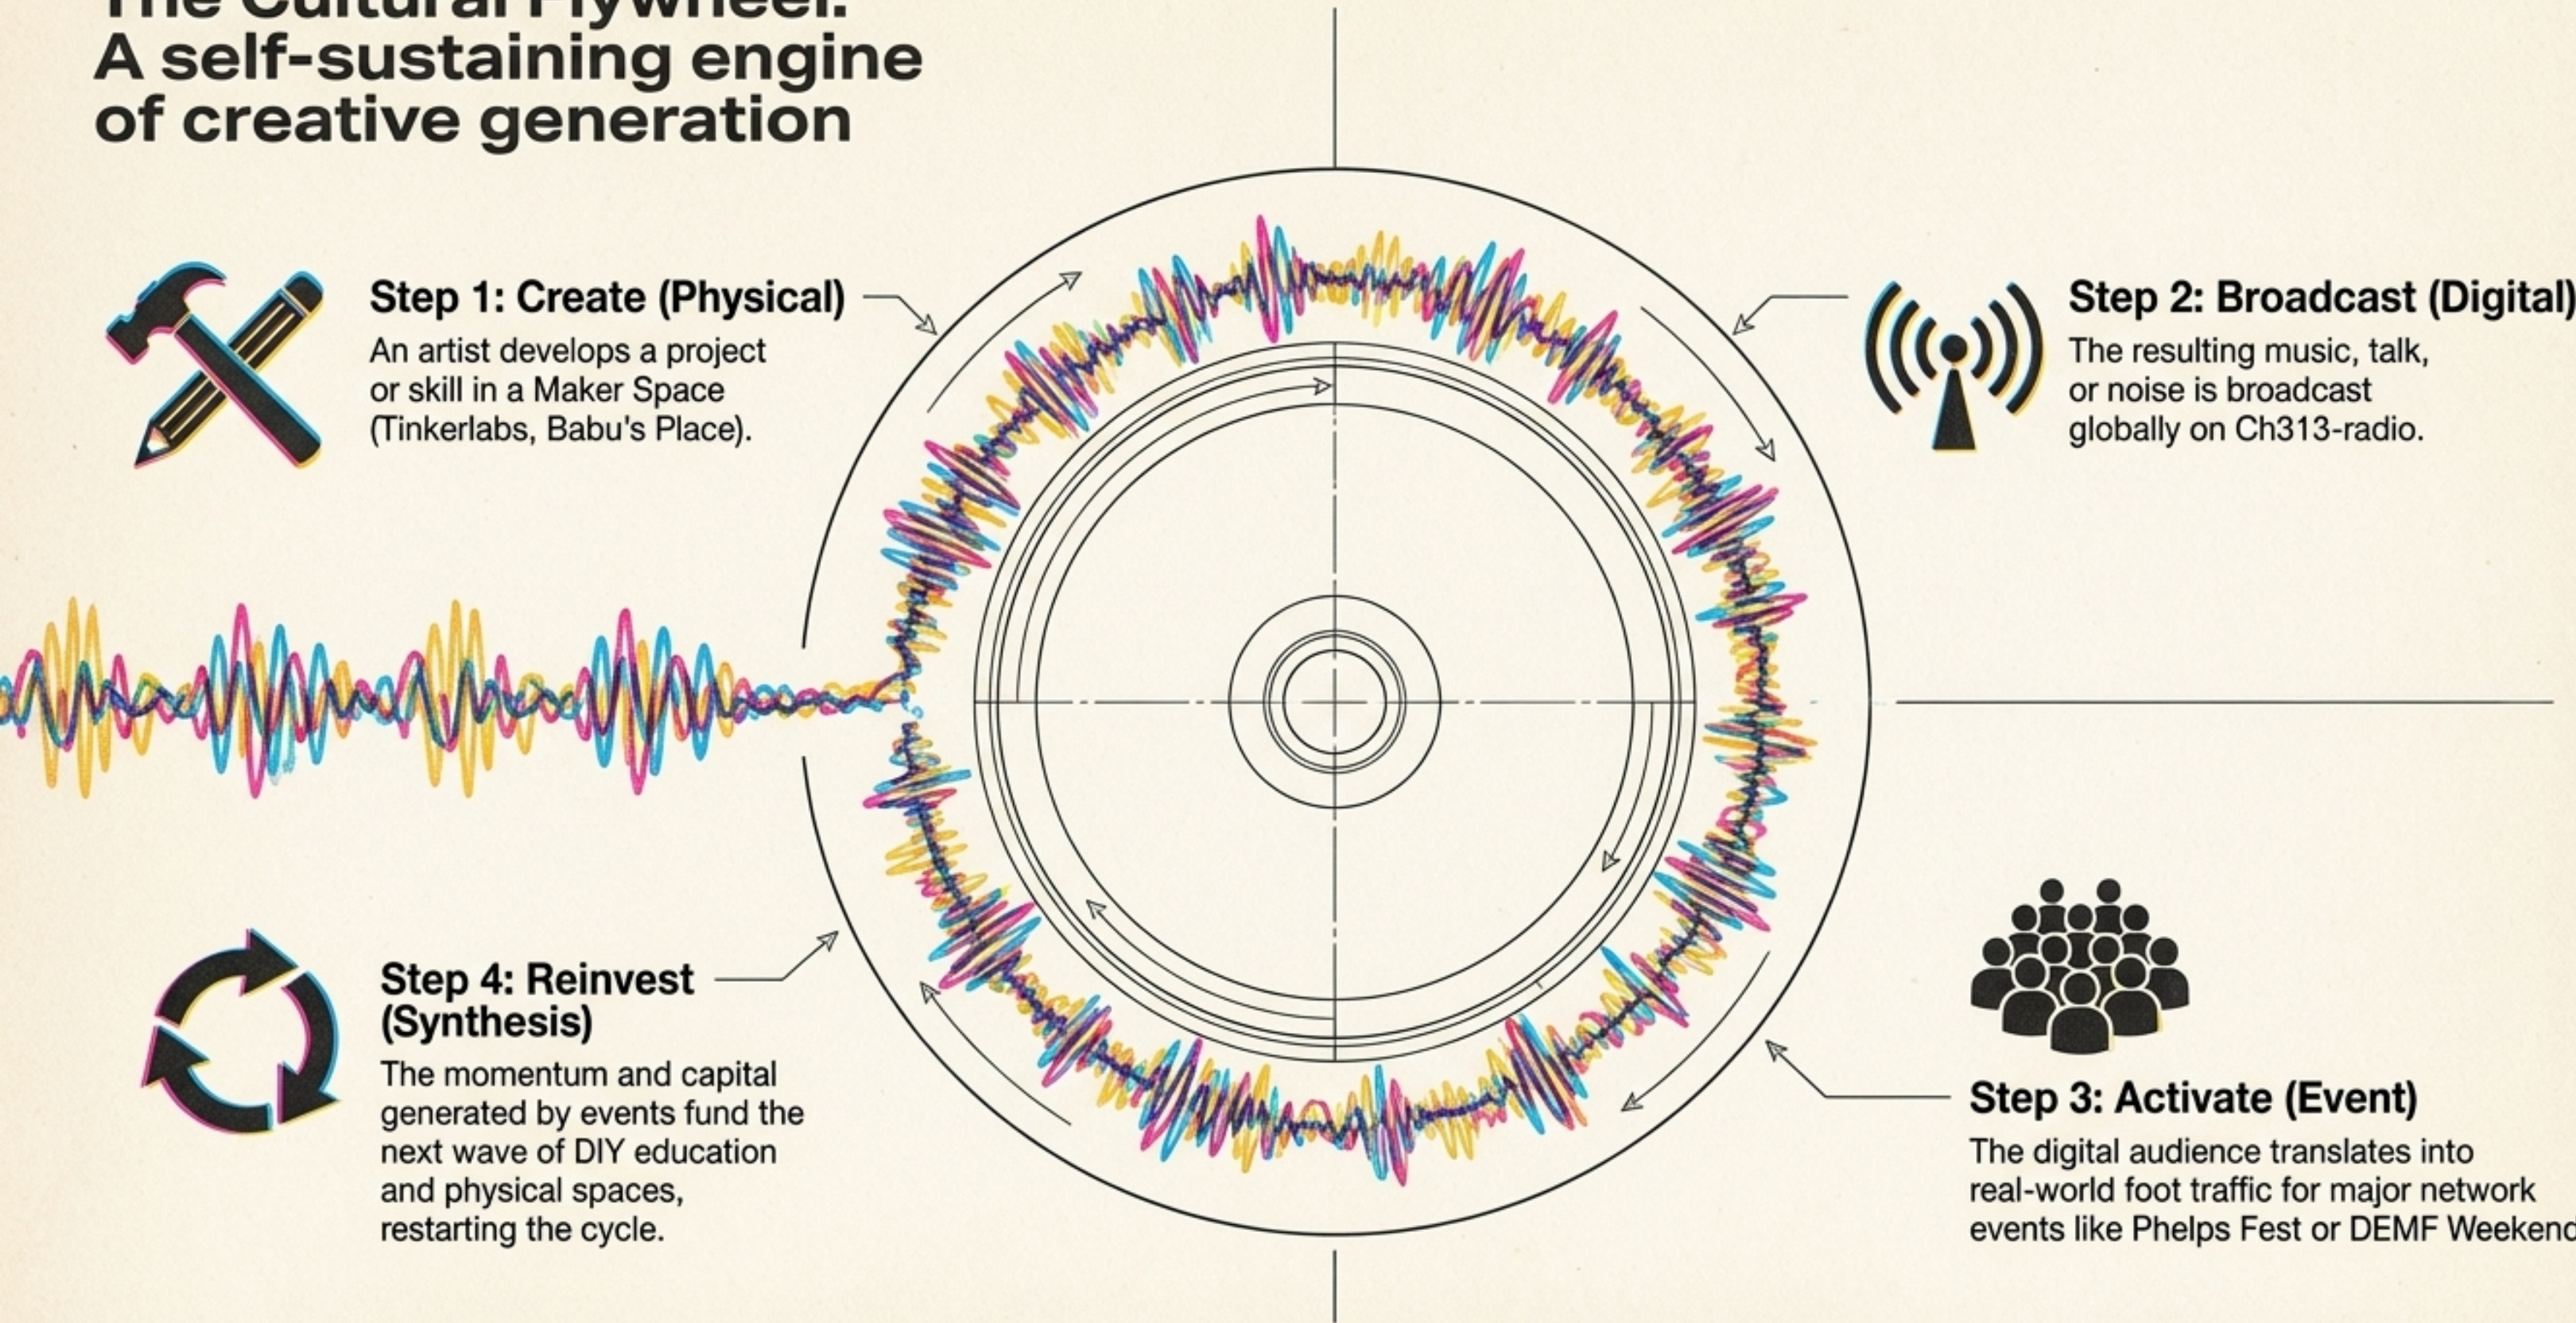

Step 3: Activate (Event)

The digital audience translates into real-world foot traffic for major network events like Phelps Fest or DEMF Weekend.

Step 4: Reinvest (Synthesis)

The momentum and capital generated by events fund the next wave of DIY education and physical spaces, restarting the cycle.
